- GITHUB

About Me

Tech enthusiast with hands-on experience in web development and IoT. Completed a 6-month IoT internship at Spyderwave Technology, focusing on smart devices and system integration. Also explored embedded systems during a 1-month project with Special Character.

WORK EXPERIENCE

DEC 2023 - MAY 2024

Spyderwave Technology

Internet Of Things

- IOT prototypes using various hardware components such as Arduino, ESP8266.
- Coordinated installation of new equipment.

JAN 2025 - FEB 2025

The Special Character

Frontend Devloper

- Built reusable UI components that can be used across multiple projects.
- Optimized performance of React applications by implementing code splitting and virtual DOM techniques.
